 Okara District, Punjab, Pakistan

SUMMARY

Software Engineer with 6 months of experience in MERN Stack, Next JS and React JS. Proven ability to develop and deploy high-quality web applications using the MERN stack. Strong understanding of JavaScript, React JS, Next JS, Node.js, and Express JS. Experience with MongoDB and MySQL.

Excellent problem-solving and debugging skills. Ability to work independently and as part of a team.

Looking for a challenging opportunity to use my skills and experience to build innovative web applications.
